WEB DEVELOPER

Motivated, hardworking Full-stack web developer with a medical background who is enthusiastic and willing to learn. Superior knowledge of medicine and the sciences. Experience with managing tight deadlines, processing large amounts of information promptly, and demonstrating attention to detail.

TECHNICAL SKILLS

Languages, Applications, and Technologies: HTML5, CSS3, Bootstrap 4, the command line, git, JavaScript, jQuery, React.js, Node.js, Express, MySQL, MongoDB

PROJECTS

Journey's Shelter Management Application | <https://github.com/zoe-gonzales/shelter-manager> | <https://journey-shelter-manager.herokuapp.com/>

Co-Developer

- This application offers business management for animal shelters via animal and donation databases. Users may add and view animal records as well as both material and monetary donations.
- Developed using React.js, MongoDB, Mongoose, Express, AuthO, the pdfkit npm package, React-Bootstrap, and Bootswatch.

Mongo Mongoose Scraper | <https://github.com/LynnAmsbury/mongo-mongoose-scraper> | <https://mongo-mongoose-scraper.herokuapp.com/>

Developer

- This full-stack app scrapes and displays headlines from Westword.com. Users may also save and comment on those articles. All data is stored in a Mongo database.
- Developed using Bootstrap/Bootswatch, Handlebars, jQuery, Cheerio, Express, MongoDB, and Mongoose

The Great Stress Escape | <https://github.com/LynnAmsbury/the-great-stress-escape> | <https://thegreatstressescape.herokuapp.com/>

Co-Developer

- The Great Stress Escape is a full-stack application intended for immediate relief of stress using calming images, inspirational quotes, and soothing sounds.
- Developed using Bootstrap, Handlebars, Express, Node.js, MySQL, and Sequelize

Liri-Bot | <https://github.com/LynnAmsbury/liri-bot>

Developer

- Liri-bot is a command line interface (CLI) app created in Node.js that takes in user input (performers, songs, and movie titles) as parameters and returns information about each of those inputs.
- Developer using Node.js, axios, dotenv, moment, and node-spotify-api

GifTastic Project | <https://github.com/LynnAmsbury/GifTastic-Project> | <https://lynnamsbury.github.io/GifTastic-Project/>

Developer

- This project is an on-click gif population page using gifs from GIPHY.
- Developed using HTML, JavaScript, jQuery, and the GIPHY API.
